'ROUND

We love these people who are professional Pollyannas when other people are in trouble.

And who moan and groan because they have a bit of hard luck.

We are still chuckling about H. L. Mencken and his wedding.

Mencken has always cast stones against the modes of today, and has been especially bitter about church marriages and honeymoons.

His attack on honeymoons, especially, was quite interesting to say the least.

But when H. L. M. was married recently, he followed the usual styles.

He was married in a church . . . and he is on his honeymoon.

It is quite all right for one to sit in the corner's seat, and cast the cynic's ban at other people . . . but when it comes down to oneself . . . well, that is a different story all together.

This baby mix-up case in Chicago was almost settled . . . notice we said "almost."

A court decision handed down yesterday instructed the couples that the mixed up babies are to be raised as brothers.

So for a short time, that will be that!

The mighty Babe Ruths now trails Hack Wilson for more run honors.

Yesterday Wilson took a lead of two over Babe when he knocked out his 45th and 46th homers at Chicago.

Another flier has been injured in the Chicago air races. He is John A. MacReady, famous Army flier, whose plane crashed in rounding at Pylon in a free-for-all race.

Since the air meet opened, two pilots and a spectator have been killed.

And the fatalities occurred when the pilots were stunting.

BENNETT RITES  
HERE TUESDAY

Funeral services for the late Mrs. F. Adelle Bennett, 74, who was found dead in her bed yesterday morning at the Yager apartments, will be held at the Wilson and Kratzer chapel Tuesday afternoon at 2 o'clock with Rev. Dallas A. Williams officiating.

The aged woman is believed to have expired during the night, having been subject to frequent heart attacks.

She was a native of New York and had lived in Richmond for nine years.

She was the widow of the late M. G. Bennett; mother of Alfred C. Curtis of 1500 Garvin avenue, Richmond; Robert B. Stewart, M. and W. M. Curtis, all of New York, and sister of S. C. Devore of Syracuse, N. Y.

Man Injured In  
Automobile Crash

Slight injuries were received by Emil Heidorn, 318 Bissell avenue, yesterday when struck at Sixth street and Macdonald avenue by a car driven by Roberta Hansen of 1221 Barrett avenue, police reported. Treatment was given at the Abbott emergency hospital.

KROW PLANS  
NEW HOUR

Citizens of Richmond will be given an opportunity to see how radio programs are broadcast when Station KROW inaugurates its programs here this week.

The beautiful KROW studio in the new L. H. Schrader building will be in use for regular programs beginning Tuesday, September 2.

An hour for Richmond women, known as "Chats With Ruth" will be on the air from 11 to 12 on Tuesday, Thursday and Saturday mornings under the direction of Miss Ruth Gwen.

Miss Gwen will have Richmond women especially in mind in arranging her programs. She has secured the services of Miss Lillian Anderson, for twelve years a dietitian at one of the leading hospitals. Miss Anderson will talk on each program, answering questions and advising as to correct diets.

The hour will also deal with fashions, beauty and cookery. Richmond women are urged to take an interest in the hour and send in comments or suggestions.

Music for the hour will be furnished by popular KROW staff artists, including Beth and Harriett, harmony team; Dolores Ferguson, soprano; Elmer Keaton, organist.

Church Club  
Meets Tuesday

The fall season of the Good Fellowship club, men's organization of the First Presbyterian church, will begin Tuesday evening.

Following the dinner, which will start at 6:15, Dr. Walter Cole, who recently enjoyed an interesting trip through the Panama canal and Yellowstone National park, will tell of his travels. A musical program will also be presented.

Driver Arrested  
After Car Crash

As the result of an accident in which a car driven by Frank Valle of Oakland, collided with a car driven by J. D. Shaker, also of Oakland, Valle is being held in the El Cerrito city jail on a charge of driving while intoxicated.

Shaker, Miss D. Bronson, who was riding with him, and Valle all sustained painful injuries, according to police, Shaker being the most seriously injured as it is believed he has a fractured ankle.

Cooper To Attend  
Fire Chief's Meet

The International convention of fire chiefs to be held at Winnipeg, Canada, will be attended by Fire Chief W. P. Cooper.

Cooper will leave next Thursday evening. He will first attend the Pacific Coast Fire Chiefs' association meet which begins in Oakland tomorrow. Fire Chief O. A. Burnett of El Cerrito will attend the Oakland convention also.

Extortion Note  
Suspect Held

PITTSBURG, Aug. 30.—The alleged author of extortion notes sent to Dr. H. E. Peters and A. C. Canfield, a merchant, was arrested by police in a pool hall here today after walking into a trap set by the police. He was Salvador Costanza, 19.

Costanza is said to have confessed to having sent notes to the two local men threatening to blow up their homes unless they left money in a wash room in a pool hall. Police placed a \$5 bill in the wash room, and Costanza was arrested when he came for the money.

Candidates File  
Election Expenses

MARTINEZ, Aug. 30.—Election expenses of six more candidates in Tuesday's primary election were filed here today.

The expenses were as follows: W. C. Miller, candidate for Constable at Richmond, \$108.65; Justice Rev. Standish, of Crockett, \$81.30; Justice A. A. Alstrom, Richmond, \$274.96; George Conlon, constable, El Cerrito, \$48.50; J. W. Smiley, constable, Richmond, \$194.14; Jacob Peterson, Richmond candidate for constable, \$24; J. J. Fox, candidate for constable, Crockett, \$27.

Boys Burn Man  
Just For Fun

ROCHESTER, N. Y., Aug. 30.—UP.—Three boys were held on charges of manslaughter today after confessing according to police, that they had burned a drunk man to death "for fun."

According to their confession, the boys found James Wright, 60 to a tree when he staggered into a junkyard, piled brush and papers around him, and set fire to the pile.

The boys are aged 8, 8 and 13. Police refused to reveal their names.

KIWANIS TO  
HEAR TALK

Rev. Father Cornelius Kennedy, pastor of the St. Paul's church of San Francisco will be the speaker of the day at a meeting of the Richmond Kiwanis club to be held in the Hotel Carquinez next Wednesday, according to an announcement yesterday.

Ben Malik will be chairman of the day and will introduce the speaker, who will base his talk on "Pollywogs."

On Thursday night members are planning to attend the charter night for the new Park Presidio club at the Cliff Hotel in San Francisco.

Friday is Kiwanis Day at the state fair in Sacramento and a number of local members are also planning to attend the event.

Slayer Of Peace  
Officer Hunted

ALTOS, Okla., Aug. 30.—UP.—While two alleged whiskey ring racketeers were under arrest, one in a hospital, the other in the state reformatory, posses of officers continued their search for a third member of a gang that engaged officers in a gun battle, killing one deputy sheriff and seriously wounding a city marshal.

The officers, headed by sheriffs of Jackson and Tillman counties, pushed their hunt for Ernest Jackson, alleged to have escaped after his two companions, Vernon and George H. Robinson engaged Deputy Sheriff Elmer Carter of Jackson county, and City Marshal Joe Whitte of Altus, in a gun battle near here, last night.

Carter was killed. He died after crawling to a farm house and yelling for aid. The farmer found him dead at the edge of the road. Whitte was expected to recover from a bullet wound in the head. He was blinded, but physicians believed this condition is only temporary.

Antioch School  
Trustees Named

MARTINEZ, Aug. 30.—Justice of the Peace Matthew Ward and Leo O'Hara of Antioch were today appointed as trustees of the Antioch high school district by Superintendent of Schools William H. Hamilton.

The appointments were made to fill the vacancies left by the resignations of George Harter and W. H. Bloomfield because of a dispute over the selection of an architect for a new high school.

Tender of appointments was offered to Chris Lauritzen and Jake Frederickson. They declined.

Valuable Race  
Horses Burned

TORONTO, Ont., Aug. 30.—UP.—Three valuable horses of the Seagram stables, including Sir Harry winner of the 1928 Cofferth handicap at Triunfo, Mex., were burned to death last night when a stable at Waterloo, Ont., burned.

Eight horses were in the barn and five were led out safely but Sir Harry, Candy K'd and Golden Sphere were in the stable section and could not be reached before the flames killed them.

Earthquake Hits Los Angeles

NO INJURIES  
REPORTED  
IN QUAKE

LOS ANGELES, Aug. 30.—UP.—A severe earth shock which rocked buildings throughout the metropolitan area, was felt here late this afternoon. No damage was reported.

The tremor lasted about 30 seconds and was first felt at approximately 4:40 p. m.

The shock was of sufficient intensity to send many scurrying into the streets as pictures swung violently on the walls of dwellings.

It was believed the quake centered largely in Los Angeles, with the Beach districts feeling the tremor most violently.

The cornices were knocked from the St. Mark's hotel at Venice, and at Sawtelle, another Beach community, police said a heavy safe had skidded into the center of the station. No one was reported injured.

Early reports indicated that the shock was felt as far north as Carpinteria and as far east as Colton, Calif.

Santa Barbara police said they had not felt the disturbance. The ceiling in the police station at Van Nuys was cracked slightly.

Houses were shaken in residences throughout the city and in some cases plaster fell from the ceilings.

AIRPLANE SAVES  
LIVES OF TWO IN  
ROCK LANDSLIDE

FRESNO, Aug. 30.—UP.—An airplane serving as an improvised ambulance arrived here late today with Robert Rankin and Donald Griffin on stretchers as the result of a landslide which occurred early this week in the High Sierras.

Rankin and Griffin were two of four youths caught in a rock slide, the other two being confined to a mountain camp because their condition was too serious to permit moving.

The injured boys were brought here from Independence, across the Sierras, by Jack DeYoung, Western Coast Airways pilot who left here this morning and flew to Inyo county where he met a party of 15 men who had carried Rankin and Griffin down the slope of Mount Whitney.

Two Left  
Back in a mountain camp, almost 50 miles from the nearest telegraph or telephone wire were Donald Downs, Glendale, Cal., and Edward Jordan, Dinuba.

The condition of Downs was considered serious. His left arm, crushed in the landslide, was amputated by Dr. W. M. Fraser, staff physician at Sequoia national park, who was summoned by men who ran over the mountain trails for assistance.

Jordan, with several fractured ribs, a broken ankle and severe bruises, also is in serious condition.

Arm Amputated  
Word brought here, however, indicated that Dr. Fraser had confidence in his surgery and other medical attention. He amputated the arm of Downs under the dim light of a kerosene lamp, it was reported.

"The party said Dr. Fraser was afraid the boys would get pneumonia if they were carried from the mountains to Independence," DeYoung told the United Press.

An ambulance was waiting at the field when DeYoung arrived and the injured boys were hurried away to a hospital. Both seemed to be cheerful but were not in a mood for a detailed discussion of the accident which occurred when a dynamite blast loosened a layer of rock above a trail being constructed from Mount Whitney to Yosemite valley.

College Boys  
The four boys, all Fresno State college students, were spending their vacation working on a government trail crew in the mountains.

P. M. SANFORD  
RETAINED AS  
PRESIDENT

P. M. Sanford, president of the State Builders Exchange the past three years, will remain in office another six months, as will other officials of the organization, it was announced as the State Builders' Exchange conference came to a close in Richmond last night.

During this six months, it was announced, the present officials will remain in office while the new system of incorporation will be tried out.

The state Exchange became incorporated last month under the definition of a "non-profit trade organization."

Other officers  
Other officers of the state Exchange are W. T. Loesch of Pasadena, first vice president; Harry Cayford, of Fresno, secretary and Lou B. Webster of Los Angeles, treasurer.

At the expiration of the six months trial it was announced that a meeting will be held in Fresno, when the present officers and directors of the organization would either be re-elected or new ones named.

The directors of the state group at the present time are P. M. Sanford of Richmond; H. G. Anderson of Berkeley; T. M. Robinson of Fresno; W. T. Loesch, Pasadena; Ralph E. Hamelin, Los Angeles; W. N. McGraw, Long Beach; C. M. Grogan, Stockton; M. W. Golden, San Diego; Carl S. Petersen, Santa Barbara; W. J. Moore, San Jose and W. H. George, San Francisco.

Banquet Held  
The conference which was voted one of the most successful ever held, came to a close with a banquet at the Hotel Carquinez last night, which was attended by close to a hundred delegates and their wives.

P. M. Sanford acted as master of ceremonies, and thanked the group (Continued on Page 5)

Moonshine Slayer  
Hunted In Hills

EUGENE, Ore., Aug. 30.—UP.—A 63-year old moonshiner who fled into the woods after killing two peace officers and wounding two others was still at large tonight with only unproved reports of his whereabouts to guide 50 possemen.

The man, Vic Sutherland, disappeared from Marcola, 16 miles northeast of Eugene, after two gunfights with police and deputy sheriffs. The trouble started when he lay in ambush and saw the officers attempt to arrest his son, Stev Sutherland, 21, in the act of selling moonshine to a male motorist and his girl companion.

Except for the capture of a still and its operator during the search today, little progress was made. Bloodhounds led possemen to a plant in the woods operated by Carl Marks, 45. Marks said that he knew nothing of Sutherland.

Reports of the older Sutherland were being run down. A woman said she saw a man wading up the Mohawk river, slightly more than two miles from Marcola. He was believed to be the fugitive, wading to throw the bloodhounds off his trail, should they take up the scent.

Two residents of Springfield reported seeing a man with a rifle cross the road between Mabel and the Riggs ranch late yesterday. With a smile he disappeared into the woods. Mabel is five miles northeast of Marcola.

ON JOURNEY  
Mr. and Mrs. John J. Peres of Richmond, will spend the week-end at Yosemite valley. They will return Tuesday.

Bomb Slayer  
Funeral Today

AMARILLO, Tex., Aug. 30.—UP.—A. D. Payne, the Texas lawyer who committed murder, then suicide, by the use of explosives, will be buried tomorrow, alongside the wife whom he killed with dynamite.

If his last request is observed, he will be buried to the strains of "Home, Sweet Home," whose author, William Howard Payne, was an ancestor.

Two hours before Payne blew himself to death with nitroglycerine early today he had said the ballad had inspired him throughout his life and had written a letter to relatives asking it be sung at his funeral.

Arrival of those relatives, was awaited tonight at the undertaking home of the Boswell Brothers, who will hold Payne's body until it is taken to the Memorial park cemetery, probably tomorrow if the relatives arrive in time. Payne will rest beside his wife, whose automobile he loaded with dynamite sticks, and whose death he caused June 27 when the dynamite exploded. Payne had been indicted Friday for the murder.

To escape trial he committed suicide in his cell call by exploding nitroglycerine which he had concealed in a bottle dangling from his neck.

Payne, since he confessed killing his wife because of love for his stenographer and financial trouble, had pleaded he be electrocuted expeditiously. He insisted no defense be offered for him, but his brother, Sid Payne, announced a plea of not guilty would be made on an insanity basis.

In his self-destruction, Payne made good previous promises that he would never go on trial.

Gigantic Oil  
Companies Merge

TULSA, Okla., Aug. 30.—UP.—Three brothers from Iowa who developed a small town banking business in Oklahoma into a national oil company with Wall Street prestige, then divided their interests into two great companies, were reunited tonight in plans for even greater oil domains.

The three Phillips brothers—Frank, Lee Eldas and Waite—by throwing together the Phillips Petroleum company and the Independent Oil and Gas company have merged assets valued at \$116,000,000 with reserves of \$103,000,000 and net cash capital of \$40,000,000.

CONSTITUTIONAL RIGHTS  
SUSPENDED IN PERU REVOLT

LIMA, Peru, Aug. 30.—UP.—The constitutional articles providing for individual guarantees were suspended today to speed the trial of deposed President Augusto B. Leguia by the revolutionary leaders.

The aged and ill Leguia, imprisoned behind a strong guard of marching guns on San Lorenzo Island, will be prosecuted to the limit by the ruling military committee headed by the battle marked Lieutenant Colonel Luis F. Sanchez Cerro. The former regime's ministers and chief officers as well as Charles W. Sutton, American director of the Lambayeque irrigation works, also must answer for "crimes" of the last decade.

Suspension of the constitutional guarantees, which might have shielded Leguia from the military committee's plan for punishment, was announced by Sanchez Cerro "in order to satisfy the national demand, thus performing a moral cleansing of the public administration and leaving the way clear for the new government."

POLICE RAID  
DANCE HALL

SAN LEANDRO, Aug. 30.—Raiders from Eden township, the San Leandro police, the district attorney's office, and sheriff's deputies early this morning closed a Filipino dance hall on the outskirts of San Leandro.

Action was taken following an appeal from Mrs. Olivia Bishop 1757 Twenty-sixth avenue, asking that the hall be closed immediately. Mrs. Bishop last night started a search for her daughter a ward of the juvenile court, and discovered her at the Diana dance hall in company with a number of Filipinos. Authorities stated that nine white girls were dancing with Filipinos when they arrived at the dance hall.

Harold Lloyd of Los Angeles, alleged operator of the resort has been placed under arrest, and is in the county jail. The hall was operating without permission of the board of supervisors. It is situated on Orchard avenue, near the Bucket O' Blood, which was recently raided.

The daughter of Mrs. Bishop is being held at the county detention home.

ODD FELLOWS WILL MEET OAKLAND

Today and tomorrow are to be two exceptionally busy days for the Richmond Odd Fellows on eastbay diamonds.

They are scheduled to tangle this afternoon with the Oakland Monarchs in a double header to be played at the Oakland Monarch baseball park. The first game will begin at 1:30 o'clock. The second of the game is at Twenty-fourth street near Peralta.

There should be a couple of heated disputes on the Monarch field this afternoon, as the Odd Fellows and Monarchs have previously split a double header.

Tomorrow the local Odd Fellows will receive the Vacaville squad on the San Pablo lot. The contest will start at 2:30 o'clock. Vacaville has already suffered defeat at the hands of the Richmond Linkers.

The Richmond Odd Fellows recently won the Richmond City Twilight League by swamping the Native Sons, 16 to 2. The same afternoon, they trounced the Corey Garage nine by a score of 13 to 0. The lodgemen are therefore rated as probably the stellar athletes of Contra Costa county.

Moitoza Fords To Meet Elks

The Moitoza Fords will go into action against the Oakland lodge of colored Elks this afternoon at 2:30 o'clock on the San Pablo diamond.

Both the Fords and Elks are reckoned among the most formidable aggressions in the eastbay and they should create a good deal of interest this afternoon by their capers on the San Pablo lot.

The Fords have met with great success during this season. After several years of inaction, the Fords came back 100 percent strong, and trounced every team that was so unfortunate as to come within their grasp.

Syd Martin will occupy the mound for the Moitoza outfit today, with Bartoli behind the plate in the absence of Anthony Moitoza.

Swimmers Get "Green Head"

ANSONIA, Conn., Aug. 30.—UP—Many of the blonde youngsters of Ansonia are sporting hair of the brightest green; some sport no hair at all; and as a result the old swimming hole down by the yarn factory is deserted by all but the brunettes.

Mothers who were astounded to discover their children's locks had turned green, overnight first hunted for physicians and then discovered that the boys had been swimming in the Naugatuck river where the factory discharges chemicals. The plant uses a colorless chemical which turns green when dry.

Many green-thatched youths have had their hair shaved off in convict fashion, hoping it will come back in its natural hue. The dark-haired boys, not being affected, continue to use the pool.

HACK WILSON LEADS RUTH IN HOMERS

By UNITED PRESS NATIONAL

Hack Wilson hit his 45th and 46th homers of the season Saturday as the Chicago Cubs defeated the St. Louis Cardinals, 16 to 4, to gain a two to one lead in the four-game series. The Cub outfielder got number 45 in the first inning with two on base and his second in the fourth with one on. The two blows placed him two homers in front of Babe Ruth and increased his chances of breaking Ruth's all-time record of 60, which was established in 1927.

The Cubs got 15 hits off a trio of St. Louis pitchers. The victory enabled them to maintain their five and one-half game lead on the National League field. Teachout pitched for Chicago and held the Cardinals safely.

New York's Giants extended their lead on second place to a game and a half by defeating the Brooklyn Robins, 7 to 4. Clarence Mitchell, southpaw spitballer, allowed the Robins only nine hits and fanned six. Bill Terry led the Giants' attack with five hits out of five times up.

The Pittsburgh Pirates swept the four game series with the Cincinnati Reds by taking both ends of a doubleheader, 5 to 0, and 3 to 2.

Phil Collins hung up his 15th victory of the season when he pitched the Phillies to a 5 to 4 win over the Boston Braves. Collins also hit a homerun. Boston scored three runs in the ninth inning.

AMERICAN LEAGUE

Lefty Grove held the Boston Red Sox to six scattered hits as the leading Philadelphia Athletics won, 11 to 0. It was Grove's 22nd victory of the season. The A's pounded three Sox hurlers for 14 hits.

The Washington Senators defeated the New York Yankees, 12 to 6, to strengthen their hold in second place. The Senators now lead the third-place Yankees by a 4 one-half games. Washington scored four runs in each of three innings.

Three runs in the ninth inning gave the Cleveland Indians a 7 to 6 victory over the Chicago White Sox. The tying and winning runs were scored off Ted Lyons, Chicago ace, who replaced Braxton in the ninth. Hopapp's single tallied the winning run.

The St. Louis Browns won a 13-inning battle from the Detroit Tigers, 6 to 5. The Browns scored two runs in the ninth inning to tie the score at 5-all.

SUTTONS LOSE IVAN HILL TO COACH LEGION GRIDDERS IN TENNIS MATCH

James Hurley and Phillip Carlin yesterday successfully defended their initial standing in the doubles division of the Richmond ladder tournament against the Sutton brothers, Irwin and Darrow.

The match was scheduled as a three-out-of-five set affair, but only four sets were required to keep the title in the hands of Hurley and Carlin.

The present title holders took the first two sets without great difficulty. The scores were 6-3, 6-1. In the third set Hurley and Carlin seemed to tire, and were barely edged out by the Sutton brothers with a score of 7-9.

However, Carlin and Hurley came back in real championship style to trounce the Suttons 6-0 in the final set.

The Suttons, as a result of yesterday's match, still remain in third standing in the Richmond ladder tourney.

Members of the Richmond Past of the American Legion football team will start heavy practice Tuesday night, when "Maj." Ivan Hill will come out to the Richmond Union high school field to look the boys over.

Although Hill is not yet positive he will take the coaching position, he will give the boys a few pointers on the game and start them off anyway.

Dan "Hap" Bradley, manager of the team is scheduled to return from his vacation today and will be on the field again Tuesday night.

It was tentatively announced by Bradley some time ago that the first game to be played by the local Legion team will be in Richmond Sept. 29 against Castro parlor, Native Sons of the Golden West.

HIGHWAY SIGNS DAMAGED BY VANDALS

Increasing instances of malicious damage to highway signs have resulted in the launching of a concentrated effort by local and state authorities to stamp out the practice, it is announced by the California State Automobile association, official road signing agency for northern and central California.

The destruction and mutilation of the signs frequently results in actual danger to the motoring public through the obscuring or removal of warnings, it is pointed out by the motorists' organization, in addition to the invariable inconvenience and delay caused by the action of the vandals.

Several of the offenders have already been taken into custody in various parts of the state as a result of the vigilance of traffic officers and other authorities. In a majority of instances it was found that the offenders were boys of school age. The motives were found to be varied.

In one San Joaquin valley town a boy, whose name is withheld because of his youth, was arrested for destroying signs by using them as shotgun targets. He was fined \$25 and held in jail until the sum was paid by his parents.

In the east bay district two boys were arrested for removing red reflectors from signs marking dangerous curves, resulting in a hazard to night driving at that point.

Another case was the arrest of two young men on a coastal highway for wantonly shooting two signs to pieces. They were released on bail, which they forfeited rather than face the certainty of conviction and punishment.

The Automobile association has a standing reward of \$25 for information leading to the arrest and conviction of any person for destroying or mutilating highway signs. The penalty for the offense is a maximum fine of \$500 or six months in jail or both.

Upwards of \$40,000 a year is expended by the Association for the maintenance of road signs and a considerable part of the outlay is occasioned by deliberate and malicious damage. The signs represent an investment of more than \$850,000, two-thirds of which has been borne by the Association.

WOMAN FLIER TO TRY FOR NEW RECORD

AGUA CALIENTE, Baja California, Mexico August 30.—A daring girl, Ruth Alexander, and eight of the fastest sprinters in Western racing, the latter so lightly weighted that they will hardly fly, will be the principals in what is expected to be a day of record breaking at Agua Caliente racetrack, tomorrow. The last two days of the Summer meeting, Sunday and Monday, the latter Labor Day, will see brilliant programs of the thoroughbred sport. At the end of the Monday program, the Agua Caliente racing will come to a close until the opening of the Winter Meeting, on Christmas Day.

Leaving Vancouver, B. C., at 3 A.M. Sunday morning, Miss Alexander, flying the "Agua Caliente" a Barling monoplane, will attempt to break the Three-Flag non stop record between Canada and Mexico. Already she holds the world's altitude record for women. Reports from her say she is confident that when she lands the "Agua Caliente" on the track infield, during the latter part of the Sunday program, she will have attained the desired record.

The sprinters will take a whirl at the six furlong mark of 1:10 3-5 in the \$1000, added, Owner's Handicap. If ever a race offered a good chance of breaking a track record, it is this Owner's Handicap, for the eight bullet like sprinters: Bon Ffye, Dr. Higbee, Brud, Beth Hogan, Sereader, Samper, Dapper, and Infansh, have only "feathers" on their backs. The weight carried in an Owner's Handicap is determined solely by the actual weight of the jockey named by the owner of each horse. Agua Caliente has had more light riders of exceptional ability this summer than any other course and such capable reinmen as A. Fisher, C. Stranks, V. Moore, C. Turk, C. McHugh, E. Bernier and H. Barry, will be among those engaging. Not one of these weigh more than 100 pounds, while some can make as little as 90 pounds. Thus under such light weight and with the racing strip faster than it has ever been before this summer, there will be every opportunity for the speedy sprinters to lower the six furlong record.

For the final day of racing, Monday Sept. 1, among the outstanding features will be the Labor Day Handicap, one mile and one-quarter, with \$1500 added money. Already enough of the best routers have been entered to make the Labor Day Handicap the best race of this distance, during the successful Summer Meeting, which Agua Caliente is just closing.

In Good Old Days Rent Was Cheap

AUBURN, Wash.—Business here was apt to fluctuate in the "good old days" of 1887, but overhead was no worry. Store rent was \$5 a month and it cost Sam Cavanaugh, founder of a local business, \$2.50 a month to rent his house, his son, Ray Cavanaugh, recalled. Gross business fluctuated wildly. In 1895 the firm did only \$3100. In 1899 the gross was \$32,000.

LOTT, DOEG IN VICTORIES AT MET MEET

CHESTNUT HILL, Mass., Aug. 30.—UP—George M. Lott of Chicago and John Doeg of Santa Monica, Cal., successfully defended their national men's tennis doubles championship here today, defeating John Van Ryn, East Orange, N. J., and Wilmer Allison, Austin, Tex., in the final round, 8-6, 6-3, 4-6, 13-15, 6-4.

The match, as desperately contested as any in recent years, taxed the endurance and courage of the players to the utmost. It was superior stamina more than anything else that enabled the defending champions to win.

Lott and Doeg seemed assured of a straight set victory when, playing steadily, they swept through the first two sets with ease. They relaxed, however, at the beginning of the third set, and their over confidence almost proved fatal. Van Ryn and Allison sensed the letdown and redoubled their efforts to take the next two sets and even the match. The fourth was a thriller. The set followed service until Allison marched through to win.

The fifth set found the champions steady once more while the challengers were nervous and prone to make many errors. The match seemed to center about Mott and Van Ryn throughout. They met frequently close to the net and slugged it out.

The finals today marked the third in which Lott has shared victory. In 1928, he teamed with John Hennessey in the defeat of Gerald L. Patterson and John B. Hawkes. Last year he won with Doeg against Berkeley Bell and Lewis White.

Betty Nuthall of England, who won the National women's singles title last week, added further to her laurels by teaming with Helen Marlowe of Los Angeles to defeat Sarah and Mianne Palfrey, Brookline, Mass., in the finals of the women's invitation doubles, 6-4, 6-2.

Edith Cross, San Francisco, and Wilmer Allison won the mixed doubles title. They defeated Marjorie Morrill, Bedford, Mass., and Frank X. Shields, New York, 6-4, 6-4.

Indoor Golf Course To Be Built In City

A. L. Paulsen, M. E. Hazelton and John Miller are looking forward to a rainy day. And in preparation for this rainy day, they are having constructed an indoor Pee Wee golf course at the vacant room in the ground floor of the Odd Fellow hall building.

According to Paulsen, the miniature golf craze has taken such a "franchise" on the American public, that when it rains, and there is no place to play, the public is liable to do something desperate, like taking up horseshoes or something.

The hazards of the course will be plentiful Paulsen announced, and the greens will be composed of 500 yards of choice Wilton carpeting. The course will probably open in about two weeks and will be of the regulation 18-hole variety.

Inman of this city reports the arrival of a four-legged chicken, perfectly formed. The chick, however, walks on only two of his underpinnings.

TENNIS TITLE MATCHES TO START SOON

The contestants in the Contra Costa County Tennis championship tournament which will start next Saturday will hold drawings for opponents this morning.

A full list of entries has been obtained by the tournament committee. There will be 64 singles players competing, while 32 doubles teams have signified their intentions of participating in the annual event.

The tourney will progress by elimination. The weaker players will be eliminated in early matches.

John Murio, last year's titlist, has been chosen as seeded number one player. He has won several championships and is this week-end taking part in the all-comers championship tourney being held at San Jose.

A list of nine outstanding athletes are under consideration for choice as other seeded players. Eight players will be chosen from the following list:

Walter Honsberger, Roger Stone, George Green, Stanley Alquist, V. Valero, Al Blanchard, Carl Holmes, Wallace Bates and Martin Klineley.

The most prominent doubles players sized up in the tourney are probably Stanley Alquist and Walter Honsberger. Other outstanding doubles players are: Hirschfield and Kemeley; Atkinson and Valero; Carlin and Hurley; Green and Ashold; Blanchard and Catton; and Holmes and Holmes.

The best tennis of the eastbay region is expected to be witnessed during the Contra Costa open tourney of 1930. Many of the outstanding players of the state are entered in the events.

All five Richmond city courts will be in use during the first part of the tournament. During the latter part of the meet, only the City Hall courts will be played upon. Following today's drawings, the courts will be immediately outlined by the tournament committee headed by A. S. Remell.

PHILLIP CARLIN WINS TENNIS MATCH

Phillip Carlin, Richmond Union high school tennis athlete is now highest ranking player in the Richmond Tennis association's ladder tournament.

Carlin achieved his present standing yesterday by defeating Jimmy Hurley, until yesterday highest ranking player in Richmond, in a whirlwind match played on the City Hall courts. Carlin won by a score of 5-7, 6-3, 6-3.

Hurley now holds number two position in the local perpetual ladder tourney. He successfully defended his title for several months against many fast opponents. Hurley is also a student at Richmond Union high school.

Carlin's rise in local tennis has been phenomenal. He started to reap tennis laurels while still in junior high school, and has continued his winning tennis tactics during his high school career.

Mrs. Tyson Wins Golf Cup Again

KANSAS CITY, Mo., Aug. 30.—UP—Mrs. Miriam Burns Tyson of Kansas City won the western women's golf tournament cup for the second time late today, defeating Miss Dorothy Page of Madison, Wis., five up and four to play, the match ending on the fourteenth green.

Poor putting which often cost her two extra strokes, contributed to the defeat of the Wisconsin star.

Mrs. Tyson now has held the trophy for two years.

## VIOLET GREEN WILL BE WED ON MONDAY

Before the altar of the Trinity Episcopal church of Point Richmond, Miss Violet Green, daughter of Mr. and Mrs. Wheeler Green of 2027 Gaynor avenue, will become the bride of Andrea J. Giroud of Crockett, at a ceremony to be held at the hour of ten o'clock tomorrow morning.

Rev. Milton R. Terry will read the impressive Episcopal service in the presence of a large number of their friends, who will gather from San Jose, San Francisco, Crockett and Richmond.

The bride will be given in marriage by her father, Wheeler M. Green. Mrs. Mary Marshall will attend as matron of honor.

The bride's gown is to be fashioned of white satin, with a long tulle veil falling from a crown of pearls. The bride will carry a shower bouquet of white roses and lilies of the valley.

The maid of honor will be attired in a frock of pink tulle and will carry pink roses.

Following the nuptial service a wedding breakfast will be served to members of the immediate family at the South Richmond Improvement club on Fourth street.

Miss Green is a graduate of the Richmond Union high school. She is a member of several of the Richmond clubs and active in social events.

After a two week's wedding tour to Los Angeles and other southern points of interest, the couple will make their home in Crockett where Giroud is employed at the sugar refinery.

The approaching marriage of the young couple has been widely feted. Recently the bride-elect was honored at a large reception given at the home of her aunt in San Francisco. Upon their return they will be tendered a reception at the Druid's hall in Crockett, Sept. 13.

The citations which comprise the lesson-sermon will include the following from the Bible: "And there were in the same country shepherds abiding in the field, keeping watch over their flock by night. And the angel said unto them, Fear not; for, behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David, a saviour, which is Christ the Lord. And they came with haste, and found Mary, and Joseph, and the babe lying in a manger." ## B. STANWYCK IN FILM AT FOX

Motion picture entertainment of the highest order is now current at the Fox-California theater. It is "Ladies of Leisure," the Columbia all-talking drama of New York night life which opens tonight at the Fox-California theater with Barbara Stanwyck, Lowell Sherman and Ralph Graves in the leading roles.

The picture adapted from a David Belasco stage play by Milton Herbert Gropper, tells the story of an artist who believed that a woman was a product of environment rather than of heredity. He becomes interested in a girl of the streets. He engages her to pose for him. Subconsciously, the girl falls in love with him and approaches his ideal of womanhood. He treated her like a lady and she had become a lady. Things are brought to a head when the artist's father walks into the studio one morning and finds the girl there. Believing the worst, he insults the girl and thus precipitates the artist into a declaration of love. Interference on the part of the artist's parents eventually separates the two young people, but they are brought together again in a thrilling denouement.

One scarcely knows where to begin in distributing acting honors—practically every part was played by a consummate artist, who left nothing to be desired in the way of convincing portrayal. Every member of the cast is a name that stands for excellent performance on the screen—the three stars, Marie Prevost, who contributes some really delightful comedy; George Fawcett, the grand old man of the screen; Nance O'Neil, capable star of the stage; Johnny Walker and Juliette Compton. Frank Capra, one of the screen's outstanding directors who has a long string of outstanding films to his credit, handled the megaphone. Here is a picture you should see—it is among the best of the season.

## GRETA GARBO IN FILM PLAY AT FOX

The invariable successful combination of Greta Garbo as star and Clarence Brown as director whose joint efforts resulted in such outstanding screen contributions as "Flesh and the Devil," "A Woman of Affairs" and "Anna Christie" is again seen in Miss Garbo's new all-talking production, "Romance," which will open a two day run Tuesday at the Fox-California theater.

The new vehicle was adapted from the stage hit by Edward Sheldon which following a successful engagement in this country was taken to England where it played for more than three years with Doris Keane in the role portrayed by Miss Garbo on the talking screen.

The story presents the romance of a foreign opera star whose past mistakes contrive to frustrate the first true love she has even encountered. The settings are laid in a society environment of New York in the old days when hoopskirts and bustles were fashionable, Miss Garbo presenting a quaint appearance in the antiquated styles. An unusual feature of the picture is the inclusion of a prologue and epilogue, the main story being told in a flashback.

An expert supporting cast was chosen to support the star in her second dialogue picture, including Lewis Stone, Gavin Gordon, Elliott Nugent, Florence Lake, Clara Blandick, Henry Armetta, Mathilde Comont and Countess Nina de Lignero.

Report has it that "Romance" is by far the finest characterization given by Greta Garbo to date.

## Italian Stage Success To Be Seen In N. Y.

NEW YORK, Aug. 30.—UP—Genaro Mario Curci, for 20 years in the operatic and theatrical world, is ready with the English version of his "Barbara," and will introduce this Italian drama to New York early in October, after a three-weeks' opening engagement, but of town.

"Barbara," since its debut last year at the Teatro Mercadante in Naples, has gone from one triumph to another. The play so far has been performed with great success in Italian, Finnish and Spanish. Mimia Agullia, noted Italian tragedienne, recently finished a month's run in "Barbara" at La Comedia theater in Havana. She will now tour Mexico and South America with the same play.

The author's wife, Elvira Caccia-Curci, will be seen here in the title role. This talented young actress was renowned in Italy for her portrayal of beautiful, innocent heroines, but in a special performance of "Barbara" staged in New York at the Gallo theater last season, Mrs. Curci demonstrated that her art is not limited to Madonna-like interpretations.

The role of Barbara, Mrs. Curci will portray a gaily ironic coquette, who, as an artist's model, weaves a web of desperate intrigue around the artist, after suffering the sting of his scorn for her love.

A feature of the play is that Mrs. Curci's quaint Italian accent will enhance rather than detract from the English adaptation. The action takes place in Paris, but not even Barbara is quite sure about her birthplace.

Curci also expects to produce "A Midnight Dinner," a comedy-drama which he did in collaboration with W. Howard Harris.

## U. S. Prison Health Aided

WASHINGTON, Aug. 30.—UP—In way of improving conditions in federal prisons in the United States President Hoover has approved a bill which authorizes the public health service to provide medical service in all federal penal and correctional institutions under the justice department.

It is believed that this will assist in solving the problem of prison betterment in this country by making it possible to obtain knowledge of characteristics of inmates and to thus aid in governing pardons and paroles of the offenders.

It is obvious that inmates of such institutions suffer from the same disease that affect the general population as a whole and the new act was adopted that all these men and women might have the same care that is given to sufferers in the outside world.

## SCOUT DRIVER ENDS LONG TRIP

LOS ANGELES, Aug. 29.—"Out-door" Franklin, Richfield's famous road scout, has just completed the most ambitious tour of his long career as advisor extraordinary to the west's motorists and sports lovers. He toured more than 7000 miles from the Mexican line into the wilds of British Columbia to obtain road, fishing, hunting and general outdoor information.

Franklin was on the road in his Richfield scout car for nearly two months visiting out-of-the-way places in order that his data on highway routes, scenic spots, lakes and streams for fishing and territories for hunting could be brought up to date.

Tia Juana, Mexico, was his start and finish point. He went more than 865 miles north of the Canadian line, the farthest north town he visited being Hazelton, B. C.

### Slept In Car

Franklin, whose car is probably the most completely equipped in existence, spent only two nights of his entire trip in a hotel. He has de luxe sleeping accommodations in his car. A gasoline stove and a refrigerator are also features of the equipment.

Franklin's route north followed the coast as nearly as possible to Astoria, Ore. He reports that the Redwood highway to Crescent City, Cal., is in fine shape, and that the Roosevelt highway from there north to Astoria has been made a first class road. Two short detours and numerous ferries were the only disagreeable part of this part of the trip. The road, he said, is plenty wide and has a good gravel surface.

"This section of the coast route is destined to be one of the west's most popular trips," said Franklin. "It follows along the cliffs of the ocean for miles and offers some of the most magnificent views I have ever seen. There are no dangerous grades nor narrow roads."

### Lauds North

Franklin was particularly enthusiastic over that part of his tour that led him over the Cariboo Trail in British Columbia. He says it is a veritable paradise for sports lovers, the fishing being particularly good. Kelley lake, he says, was simply alive with fish and the scenic beauty of the section that skirts the famous Frazier river canyon for 300 miles would fascinate any lover of the outdoors. The road, while crooked and narrow, he says, is perfectly safe.

The Cariboo Trail is associated with the gold rush days in many a romantic story. It starts at Chilliwack and leads 36 miles north of Hazelton. From this point there is a gap of about 750 miles to the White Horse highway. When this link is complete there will be a continuous highway to Alaska.

Driving south, Franklin left the Pacific highway at Portland to swing around the famous Mt. Hood Loop and then took the Oregon Skyline route through Bend and Crater Lake back to the main highway at Medford. He also left the main route for a side trip into Mt. Rainier national park.

**Many Cars**  
"It was particularly interesting to note the large increase in the number of 'foreign' cars on the highways of the Pacific northwest," said Franklin. "I passed so many California license plates up north that I began to wonder if there wasn't some special attraction to take them all there at the same time. There was a big increase, too, in the number of eastern cars, indicating that the country generally is becoming aware that Oregon, Washington and British Columbia, equally with California, make an ideal section to tour through."

"Richfield stations are just as conveniently placed in the Northwest as in the south, and the products just as popular."

Franklin has driven more than a million miles over Western roads in search of the right places for vacationists and outdoor lovers generally. He has visited all the famous hunting and fishing places and scenic spots. Thousands write him annually to have him help plan their vacations or to give them specific information of various sorts.

## SUCCESSFUL MEETING OF STATE BUILDERS HELD HERE ENDED

(Continued From Page 1)

for its wonderful support during his term in office, and its cooperation in all activities.

Fred D. Parr was the speaker of the evening, having his talk on the "Value of Cooperation."

### Parr Talks

Parr made a brief but impressive speech, lauding the Richmond chamber of commerce, the city officials and the various local business interests.

"There is as near perfect cooperation in Richmond," Parr declared, "as there is in any other city in the state."

Parr was loud in his praise of this city, declaring that it was a good place to live in, but was more important as "the ideal industrial location on San Francisco bay."

### Delegates Present

The convention opened yesterday morning with about 6 delegates from the entire state present, at the Richmond Builders' Exchange headquarters where the business sessions were held.

The meeting was called to order by Roy Eakle, president of the Richmond Builders' Exchange, and Rev. A. A. Pratt delivered the invocation.

E. B. Bull, first vice president of the Richmond chamber of commerce, welcomed the delegates to Richmond and W. T. Loesch, first vice president of the state Exchange gave the response.

H. L. Sweeney of Santa Barbara, chairman of the industrial survey committee was the principal speaker of the morning session and H. C. Morgan, deputy registrar of Contractors of California was the principal speaker of the afternoon.

### Sweeney Talks

Sweeney delivered a thorough address on the subjects of taxes, apprentices, finances, insurance, building codes, publicity and business.

In regards to taxes, Sweeney declared that after a complete survey of the conditions in California, he and his committee have decided that California property is not being properly taxed. In supporting his contention, Sweeney declared that each building or piece of property should be taxed according to the income it is bringing its owner, pointing out that it is not just to tax a man with unimportant acreage as highly as a man with a fruit orchard bringing in money.

In touching upon the subject of apprentices, Sweeney declared that never in the history of the state has there been such a poor lot of apprentices in the building trade.

### Schools Blamed

The speaker blamed this condition directly on the public schools, stating that although hundreds of dollars are being spent each year to teach boys the building trade, yet the work is so varied and so impractical, that the pupils fail to gain an insight into the work.

Sweeney also scored the teaching staffs, declaring that in many cases the teachers were not properly prepared for the work of teaching the building trades.

Appointment of a committee by the governor to work out a scheme for legislative action was favored by Sweeney and his committee, he stated.

### Insurance Hit

Sweeney touched on the subject of finances and insurance, in the latter subject, dwelling on the fact that many concerns in California, particularly those owning large buildings, were paying too large an insurance rate.

W. H. George of San Francisco, president of the National Builders' Exchange, was the next speaker, commenting on Sweeney's address and declaring that the tendency of banks and loan concerns was to discourage building.

He stated that after an investigation he learned that this was because they were afraid to loan money on buildings that were not built for permanence, and advocated that a special inspector be employed for all prominent buildings.

## TELEVISION IN THEATER

WASHINGTON, Aug. 30.—UP—Television experiments in England have reached the stage where tests are to be conducted in transmitting legitimate stage plays from a London theater, according to advices received by the Commerce Department.

This marks the first step looking toward adoption of television on a commercial basis. Development of the new invention has been watched with keen interest in Great Britain where it is felt its commercial possibilities hold great promise. Trade Commissioner George R. Canty at Paris cabled the department.

Present tests from the stage are being conducted by the Baird Company which is perfecting and exploiting television in the British Isles. If they prove successful, British stage interests contemplate additional installations as it is felt television may become an excellent asset to the theater in bringing its art to the larger "audience of the air."

Indicative of the progress being made in television development in Great Britain is announcement of formation of a Television society to promote information on the new invention.

## "Executed" Man 89 Years Old

KINGSTON, Mo., Aug. 30.—UP—It's a matter of record that E. G. Wallace, who is usually to be seen relaxing in the shade of the court house trees here, is dead. But recently he celebrated his 89th birthday.

Wallace, captured with three other men during the Civil war, was convicted of participation in guerrilla warfare and sentenced to die.

The men were lined up, rifles cracked and they fell forward. Wallace said his companions were dead, but he, unhurt, fell from fright. The execution squad came near and fired a bullet at the head of each man to make certain of death. The bullet intended for Wallace pierced his hat, grooved his skull. The scar remains today as proof of his story.

### WEEK-END TRIP

Mr. and Mrs. Sam Coe will spend the week-end at Clear Lake. Coe is employed by the Schrader Furniture store.

Management is vested in the council, composed of Prof. P. J. Cheshire, Sir Ambrose Fleming, Sir Philip Gibbs, Lord Angus Kennedy, Admiral Mark Kerr, and Sir John Samuel.

## EMPLOYMENT AIDED BY U. S.

WASHINGTON, Aug. 30.—UP—Unemployment was materially reduced throughout the country as a result of an additional \$50,000,000 appropriated by Congress for improvement of highways in the federal-aid system, according to a report of the Bureau of Public Roads of the Agriculture department. Employment of men on federal-aid projects numbered 20,200 in April, an increase of 4,000 over the preceding year when 16,200 men were given jobs on highway constructions.

These figures represent the men used in actual construction work and do not include the employment of workmen in the preparation and transportation of materials used. This increased appropriation bill was signed by President Hoover on April 4 and apportionment of the money to the states was made by Secretary of Agriculture Hyde on April 7.

A WANT AD IN THE RECORD-HERALD WILL DO THE WORK

## Hint Treasure In Open Grave

HUMANSVILLE, Mo., Aug. 30.—UP—A historical legend came to light here through the ghoully disturbance of the grave of Jack Richardson, civil war soldier who was buried when the state was torn by post-war strife.

Periodically relatives of the soldier have found the earth dug from above his casket. At first the desecration was attributed to vandals. But "Uncle" Tommy Mashburn, who remembers the dim past when Jack Richardson went to war, has a different theory.

An old man named Martin once lived near the burial plot, according to Uncle Tommy. This man had "a parcel of negro slaves 13 of them."

Martin feared the slaves would be taken from him. He took them to a mart at Warsaw, Mo., and sold them. Word got about that he was \$1,000 each for the negroes. Guerrilla warfare tore the land, robbery was a commonplace. Martin left and never returned. It was commonly held he had concealed his money.

Uncle Tommy Mashburn said he believed it was suspicious Martin buried his money in Richardson's fresh grave and that to this day the grave is the object of treasure hunters.

## MAN FOUND IN MONSTER SHARK

NEW ORLEANS, Aug. 30.—UP—Page the land-loving scientist who said man-eating sharks don't eat men.

The debatable question in which scientists and explorers have contradicted sundry nautical laymen was answered conclusively here when Captain Thomas Sheehan, of the Point San Pablo, steamed into port from Tampico with photographic proofs of the shark's delight in human meat.

An 18-foot monster shark is pictured dissected, and resting in his exposed innards are the skull and most of the body skeleton of a man. The shark was caught by Pilot Radizes of the Mexican pilot service near the Tampico wharves.

In Tampico, said Captain Sheehan, it is believed that the unfortunate proof was once a Mexican sailor who either fell overboard from some outgoing ship or who was dined upon while swimming in the Gulf of Mexico.

# RICHMOND MOVES ON

There are many signs of progress in Richmond. The Chamber of Commerce takes pleasure in printing herewith a recapitulation of some of the recent significant developments:

Ground has been broken on the Ford plant and work begun on a large scale.

The large and important Santa Fe dredging and filling program in Ellis Slough is fully under way. This will create a new deep water area for Richmond besides bringing into existence substantial industrial acreage served by ships, trains and trucks. This is a private venture but it is of the greatest public significance to this city.

The steamer Dorothy Luckenbach recently called at Richmond establishing a direct service to the East Coast.

The Filice and Perrelli cannery has been operating at capacity giving employment to about 700 local persons.

These developments all have a bearing on making Richmond "Industry's Western Goal," and it is significant to note that this city has been blessed with remarkable progress in a year of general industrial and commercial depression. The Chamber of Commerce looks back with pleasure on recent achievements and looks forward to still greater ones in the future. It solicits th continued support of the community.

## THE WOMAN OF IT

By Marguerite Moders Marshall

### Oh, Well, Adam Started It!

BETWEEN hot weather and vacations, life has been too short even for women who are good citizens. To read all the damning details of all the investigations into all the alleged iniquities of magistrates and heads of departments and professional politicians in New York.

According to the headlines, many of these gentlemen have done those things which they ought not to have done—But—shall we be too cynical? If we apply to local politics another line from the service—

“As it was in the beginning, is now and ever shall be?” What no newspaper-reading woman will have missed, however.

Is the sad case of Mrs. George F. Ewald, wife of the gentleman charged with bargaining for his appointment as magistrate. The grand jury declined to indict. But the gentleman improved the final shining hours of the inquiry.

By chivalrously hiding behind his wife's skirts. “Ewald Blames Wife for Woes Over Finances”—“Responsibility for Financial Woes Laid on Wife by Ewald”—So run the headlines.

On the latest instance of the eternal Adam's plea, “The woman did it, Lord!”

This is how it all came about: District Attorney Crain announced that the check for \$5,000 drawn by Mrs. Ewald and ultimately received by Martin J. Healy, Tammany district leader.

At about the time Ewald was named magistrate. This check came from a joint account in the names of both George F. and Bertha Ewald.

Therefore, argued Crain, George F. must have known the check was sent. Whereupon George F. countered with the defense.

That his wife managed all the family financial affairs. “Oh, I never looked at my bank statements,” he declared.

“I turned them over to her unopened.” “She was the business head of the family.”

“She was a poor business woman.” “She was constantly getting into trouble.”

“Lending money to people on notes.” “I called her down for lending money in that way.”

Naturally, no woman—except Mrs. Ewald—can say whether this defense is true or not. But what every woman can and must say

is that it's exactly like a man to make it. To put all the blame on his wife's shoulders when things go wrong.

Is a matter of fact, most women can't imagine a wife drawing \$5,000 out of a joint account shared with her husband.

Unless she at least mentioned the fact to him. To the average wife, a joint account is an invitation to grand and lofty spending.

She simply accepts it as one of her husband's clever little labor-savers. She knows that it saves him the trouble.

Of drawing checks for the telephone bill, the electric light bill, the gas bill, the water bill, the plumber, the coal man, the man who mended the window, the children's dancing instructor.

A husband loves to shove off all that petty secretarial work on his wife. He is tickled to death to leave to her the job of keeping the balance straight in the checkbook.

And the boredom of paying for all the petty domestic services. But, gosh, does she think of dipping into that account.

For four-figure figures of her own? Never in a million times—oh, of course, Mrs. Ewald may be the million and first exception!

Still, if she was “the business head” of the Ewald family, and such a terrible one.

Why didn't George F. find it out before? And do something about it? Why wait until now to tell the press, the grand jury and the world?

### THE TRUE ROMANCE

ALL the world of women loves a love affair, and we just happened on one so charming that we must tell you about it. Hidden away in a thick volume, “Mary Gladstone,” Her Diaries and Letters, is the late-blooming romance in real life of Gladstone's favorite daughter.

She was thirty-seven when she and her Harry found each other, and this is what she writes to her best friend: “So do tell A. J. B.” (Arthur James Balfour).

“Only don't let him ever try to marry without the real thing. It gives me far more creep now to think what it would be, than when I knew nothing practically of what it would be with the real thing.”

Another delightful bit in the letter is the description of the honeymoon with Harry—the Rev. Harry Drew. Says Mary, the bride:

“I think we were quite happy from the first to the last, and never felt bored for one minute. We were always disagreeably late—there was seldom time A. M. to do much more than eat breakfast, read our letters, and then the assembling of one's country clothes takes on something of a sporty game all by itself.”

The things are really so fascinating that they will inspire you to “do” it.

Imagine a modern bride reading Job at the honeymoon breakfast table!

It is after the husband's death that Mary's cry of love hurts:

“I feel utterly incapable of facing life without Harry. Lavinia, it's far worse losing a husband than I ever dreamed of. People say, ‘How good and brave you are!’ But you can't kick and scream! And if one doesn't one is all right. Instead of being filled with wild rebellion, I am now and then, ‘I can't bear it, I won't bear it.’ But after all the most rebellious of us has to bear it.”

The final footnote on this human story of love-in-mariage is contained in Mary Gladstone Drew's brief report of a conversation with Queen Alexandra, when the widowhood of both was new.

“We talked of the way men died and left the huge majority of women, and only women would die more!”

## Who's Looney Now?

THIS BOOK ABOUT THE HINDU FAIRIES IS A PANIC! GOSH, Y'KIN HARDLY BELIEVE! HUMAN BEIN'S PULL SUCH SILLY STUFF—

HERE'S A GENTLEMAN WHO HAS BEEN LYING ON A BED OF SPIKES FOR EIGHTEEN YEARS AND ANOTHER WHO ROLLED 200 MILES TO MECCA. THEY HAVE LITTLE TO DO—

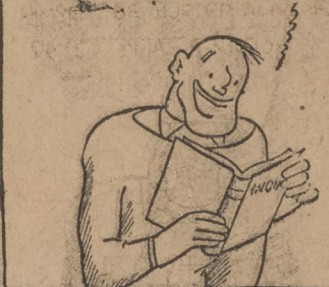

HERE'S A FELLA WHO HANGS UPSIDE-DOWN FOR THREE HOURS AT A TIME AND ANOTHER GUY WHO NEVER SITS DOWN. BEEN STANDING FOR TEN YEARS—

HERE'S A MILD ONE, HE'S BEEN HOLDING HIS ARMS OVER HIS HEAD FOR TWENTY YEARS! YA GOTTA BE A LITTLE CRACKED T'GET AWAY WITH THINGS LIKE DAT!—

GOOD NIGHT! HERE'S A NUT WHO HAS SAT STARING AT THE SUN FOR FIFTEEN YEARS AND A YOGI WHO LETS HIMSELF BE BURIED ALIVE FOR FORTY DAYS. WHAT A NATION!

AN WELL! I SUPPOSE IT TAKES ALL KINDS OF PEOPLE TO MAKE A WORLD!

## Country Clothes Anticipate A Mercury Drop

By Ann Roberts

Copyright Press Publishing Company (New York World) 1930

A country life even if up to the present you have steadily resisted the idea.

Gone is the day when any old thing would do for out of town. Now you must be just as chic there as you would for the swiftest party of the season. And now we have shops that specialize in country clothes as an exclusive thing where the smartest of country outdoor things are chosen with educated care—as, for instance, Bonwit Teller & Co., from whom the following information was gleaned.

### Early Fall Suits

FOR earliest fall days there is the two-piece suit of some sheer knitted tweed. It is not in the least a heavy affair but it has that rough, tweedy look that is so very smart and country. It is also a very practical sort of purchase for one with a limited income because, after its fall wear is over, it can serve admirably for wear under a fur coat or for stormy days with a top coat. It is the kind of suit that can be literally dragged about and still retain a certain smartness of form.

### Suits of Four Pieces

FOUR-PIECE suits—that is, skirt, blouse, coat and topcoat—all made of the same material are most satisfactory in any country environment. The topcoat has its fur collar, the suit coat naturally omits addition. Don't be afraid of color when buying a suit of this type. The season promises to be a gay one, as it should be to offset all this gloom and depression which has sur-

round even the very clothes we wear. One of these suits is illustrated, and it brings out the point that the simplest of designs are quite the best. As far as country clothes are concerned it looks like a sad season for hats—meaning the sale of them. For almost every suit has its hat attached as part of the ensemble. Usually it is made of the same material. They are berefts of the simplest form, possible to make up at home and still be smart. You can have dozens of them, bringing variety to any wardrobe.

The separate topcoat is something that every one needs. Right now it is necessary if you are contemplating trips to the north or are motorizing a good deal. And for chilly days in the fall it is a sporty looking thing from which much use can be had. Plaids will be excellent. A plaided tweed is shown on this page.

Boucle—you know that heavy, silky, knitted stuff—has been most popular all summer long and will be for fall. The Russian blouse things are at their best in this material with skirts that are woven in ribs to look like plaids, the blouse parts being done in an all-over design with a tweedy effect to them.

### Attention Getters

“WHAT'S that?” I cried, as piercing shrieks came from the next room.

“Oh, don't be alarmed,” said my hostess reassuringly. “It's only the parrot.”

“Is anything the matter with him?” I asked.

“He wants attention, that's all,” she said, with a laugh, as she proceeded into the adjoining room to quiet her pet.

“Do you always go to him when he screams?” I asked her, when she returned.

“I have to,” she answered. “Otherwise all the neighbors would be running in here to see what's the trouble.”

How like a child, this parrot. I thought to myself. Children, too, crave attention. They would far rather be scolded or punished than ignored. Their cleverness in gaining our notice is indeed amazing.

“I can't understand why Mary is always so naughty when we have company,” a mother said the other day. Not so difficult to understand, it seems to me! When there is company, mother pays little or no attention to her young hopeful, and this is far from pleasing to the child. Hence, she stands on her head, and bangs a fork on the table, and pulls at mother's dress until her questions are answered. How much better it would be if mother forestalled these annoying means of gaining attention by herself giving the child opportunities to bask in the limelight. She might include the little one in the conversation for a while, and allow her to pass the refreshments, and extend other little courtesies to the guest. And then, probably, the child would be perfectly satisfied to go to another room and play with her toys.

There are ever so many different kinds of attention getters. Some children go into tantrums and scream, just like my friend's parrot. Others bang their heads on the floor, or hold their breath! Some youngsters refuse to eat, and my, what a stir that usually causes! Strange words, picked up from the street, often raise quite a commotion. One boy I know delights in saying “shocking things.”

We must handle these children just as my friend's parrot ought to be handled, by not giving them attention at the time they are screaming.”

For if we do, they will keep this habit up indefinitely, perhaps all their lives. We should give both the children and the pets the attention they crave, but very freely, at other times. An occasional smile, and word or act of endearment, and encouraging words of praise and approval mean much to the young ones! Don't let's wait until they “scream” to give them our attention!

## CA TISH CA DAY

Copyright Press Publishing Company (New York World) 1930

A housewife takes a really keen interest in her job, these are thrilling days for her, because she finds her daily marketing problems vying in importance with the day's news of political exposés and endurance records. If she accepts her tasks stolidly and gets them over with as quickly as possible, telephoning her orders to the neighborhood grocery where she has always traded, she deserves to fall into the hands of a profiteer. If, however, she brings intelligence and enthusiasm to her job, she will shop around for her food products, comparing quality and prices before she buys.

A great hue and cry has been raised over the rise in food prices owing to the drought. Some of the small markets in exclusive residence sections have hoisted their prices, but if you will take the trouble to go to the cash and carry chain stores, and to the larger markets in neighborhoods where competition is keen, you will find that prices are remarkably low.

The Fair Price Board under Health Commissioner Wynne is trying to protect the housewife from profiteering, but the housewife will have to supplement their work with a little figuring of her own. What is a fair price? In the chain stores and markets which do a tremendous volume of business, their prices of 9 cents for a head of lettuce seemed fair. But when I saw a head of lettuce in a market on Park Avenue, I was amazed.

Has the latter market pays much higher rent. Does a small volume of business, makes many deliveries and has a hard time collecting bills even when they have been running for five months. Considering their overhead, maybe their price was fair, too. But

there is no law compelling housewives to trade at such markets. Careful menu planning, with an eye on what is plentiful and reasonable in the markets this week

## CAUTION URGED IN SCHOOL ZONES

Prompted by the fact that hundreds of thousands of children are again traversing streets and highways between their homes and classrooms following the opening of the schools for the fall term, the California committee on Public Safety is emphasizing the need for careful driving in school zones as the subject of its September campaign.

This month marks the beginning of the second year of the work of the committee along the lines of traffic safety education, devoting each month to a different type of motoring regulation.

"Slow passing school—safe driving rule," is the phrase adopted for use as a slogan in heralding the subject chosen for the September effort. The message is being sent widespread throughout the state through the medium of the radio, moving picture theaters, posters, service clubs, and the press.

With the cooperation of the California Highway Patrol and police departments the committee is seeking to impress upon motorists the importance of observing the legal speed limit of fifteen miles an hour when passing through a school zone.

The legal department of the California State Automobile association, which is assisting in the work, points out that the California vehicle act declares violation of the school zone speed limit to be a misdemeanor. The penalty is a fine of \$50 or five days in jail, or both, for the first offense; \$100 or ten days for the second infraction within a year; and \$500 or six months for the third.

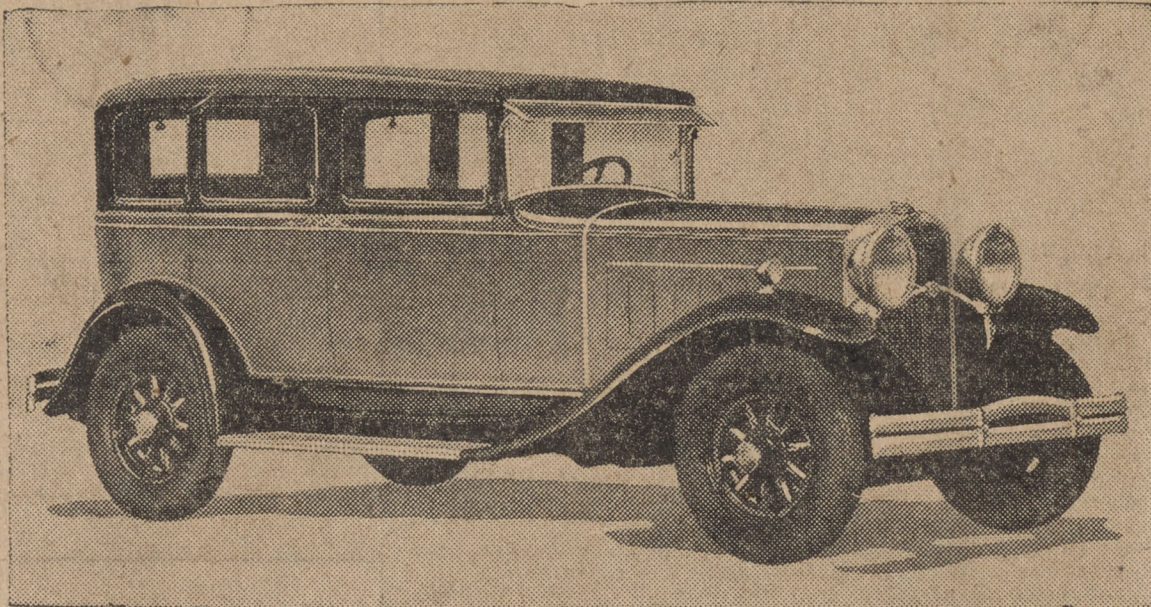

In accordance with the customary plan of the year-round campaign, the first ten days of the month are being devoted to an educational appeal to the motoring public, to be followed by a period of strict enforcement of the law.

Meanwhile the Public Safety Department of the Automobile association is continuing to seek the co-operation of motorists in the work of the school traffic reserve, formed as an auxiliary body to safeguarding the passage of children through traffic near the schools. The reserve now numbers more than 5000 selected boys who patrol the crossings.

A. B. MINTER of Richmond has been named Richmond dealer for the Graham automobile. Here is shown the special Graham eight.

## CONSTITUTIONAL RIGHTS SUSPENDED IN PERU REVOLT

(Continued from Page 1)

Articles 24 and 31 were suspended.

The transfer of Leguia from the cruiser Admiral Grau, to which he fled when his regime crumbled after 11 years, was made against the advice of the former president's physicians, who urged that the removal be delayed at least 18 hours in view of the illness of Leguia. Lieutenant Alfonso Llosa and other officers in charge of the former president conferred, however, and decided not to risk a controversy with the fiery Sanchez Cerro. They carried out the order to transfer Leguia immediately to the island off Callao, Port of Lima.

San Lorenzo is a barren and desolate little prison isle where Leguia often sent political foes when he was exercising dictatorial power at Lima. The guard at the island was strengthened by machine guns on the wharf when the deposed president was taken there to be guarded by men who were released from prison with the success of the revolutionary movement.

All officials in charge of the island formerly were imprisoned by Leguia. The ex-president's son Juan, occupied prison rooms in

which Dr. Arturo Ochores, his wife and daughter were held until Ochores, a former cabinet member, was deported to the United States last March.

### American Held

Sutton, as well as Lieut. Commander Harold Grow, an aviator and former United States naval officer, were still held by the revolutionary government. Grow was safe and well cared for, but Sutton was removed to Lima on the steamship Huasco after a threatening crowd gathered in front of his house. The crowd, however, made no attempt to enter.

Sutton was the object of bitter attacks by the leader of the new military regime. He was said to have been a powerful figure for five years under Leguia, holding sway over a large region near Lambayeque, where water was being brought from the mountains to irrigate small farms for peasants. The projects aroused violent opposition on the part of the large land holders, who charged their land was being confiscated for the project.

Sutton directed reclamation projects costing about \$6,000,000. Grow, who was captured at Arequipa, was charged with being "a mercenary hireling" of Leguia, in a statement by Sanchez Cerro, who said the American would be court martialed.

## PLANE SAVES LIVES OF TWO

(Continued From Page 1)

Griffin said as he was lifted from the stretcher in the cabin monoplane and carried to the waiting ambulance.

"So am I," echoed Rankin. "But I wish Don and Ed were with us." At the hospital Griffin gave a few details of the slide which so nearly cost the lives of the four.

**Dynamite Blast**  
"I don't remember much of it," he said, "I guess it was like the world falling when the dynamite exploded."

"When I became conscious I noticed the other fellows lying around me. Downs was caught under a rock. His arm was crushed so that Mr. Fraser had to amputate it when he arrived."

The boys were not able to add much to information which rescue runners had brought from the slope of Mount Whitney, the highest peak in continental United States.

**Trail Cut**  
A trail is being cut from Whitney to Yosemite and the boys were members of the crew. A blast of dynamite loosened a layer of rock about 500 feet above. More experienced workers leaped to safety, but the four college lads were caught.

George Carey, a member of the crew and a former distance runner, started for aid while other workers lifted the rock and dirt off the four boys. It was necessary to chisel away part of the rock on Downs' arm.

Twelve miles up and down mountain ridges ran Carey from Harrison Pass in Sequoia national park, the scene of the accident, to the Crabtree Ranger station.

**Long Ride**  
It took him four hours to reach the Ranger station where he found Sam Clark, forest ranger. Clark then rode his horse 22 miles over rugged mountain country to Tunnel Ranger station, nearest point having a forest service telephone.

A call placed at Tunnel station reached Sequoia national park where it was relayed to Visalia, a San Joaquin valley town. Dr. Fraser, who was not at the park headquarters, set out on horseback and with a nurse, Mrs. Iris Lawson, rode 42 miles over mountain trails.

Dr. Fraser, arriving Thursday night, ordered the removal of Griffin and Rankin. He organized the party of 15 which with improvised stretchers started down the slope of Whitney to Independence.

**Bones Set**  
Under a kerosene lamp and with crude tools, Dr. Fraser amputated the arm of Downs and set Jordan's fractured bones. He ordered that Downs and Jordan remain in the camp until their condition made it safe to move them.

It is always cool and frequently cold, high up on the slope of Mount Whitney. Exposure might result in pneumonia which would be fatal, the physician said.

The 28-mile trip from Harrison Pass to Independence with Griffin and Rankin was made easily, DeYoung said.

Downs and Jordan must remain in bed in a tent at the mountain camp, however, until strong enough to travel. Dr. Fraser has secured medical supplies from valley points and with Mrs. Lawson is remaining with the injured youths until they are well enough to be carried down the trail.

### Champion Rat Catcher Dies

PADDUCK WOOD, Eng.—Mrs. Rose Sturgess, 70, champion woman rat catcher of England, died here recently after carrying on the work in which her family had been engaged for generations.

### Population Of World Increases

THE HAGUE.—The world will be hanging out a "Full House" sign soon, according to the International Statistics Institute, which states that the population of the world now exceeds 2,000,000,000, an increase of 40,000,000,000 in 20 years.

## A. B. MINTER TO HANDLE NEW GRAHAMS

According to an announcement yesterday from the Graham manufacturing headquarters in Detroit, A. B. Minter has been appointed to handle the Richmond agency for the company.

This appointment places the dealership for Graham in the hands of one of northern California's best known motor car men. In the automobile business since 1898 and affiliated with the Paige-Jewett line of automotive products from 1924 to 1926, Minter has established an enviable reputation as a successful merchant. He has been actively engaged in business at his present location for more than 17 years.

An engineer and mechanic of outstanding ability, the new Graham dealer is particularly well fitted to offer to Graham owners in this locality the best possible service. His shop facilities are unexcelled in this region, he will give the 90-day service on cars sold by the previous dealer.

The Graham dealer franchise is one of the most desirable in the automotive industry, say motor car men. With the backing of the three Graham brothers the Graham has risen rapidly in popular favor. Last year's registration figures showed that it was one of the few makes of cars that had an increase in actual sales as compared with the previous year, and so far this year is looking equally strong.

**Two New Eight**  
The line of Graham passenger cars now comprises two new medium-priced eights, two low-priced sixes, and two large custom eights, and in addition the Paige commercial car is available in two body models.

A distinctive feature of both the Graham passenger car and the Paige commercial car is that every model is equipped throughout with shatter-proof safety glass in every car window and windshield.

In detail the various chassis models are as follows: Standard-six, three speeds, 115-inch wheelbase; special six, four speeds, 115-inch wheelbase; standard eight, three speeds, 122-inch wheelbase; special eight, four speeds, 122-inch wheelbase; custom eight, four speeds, 127-inch wheelbase; custom eight four speeds, 137-inch wheelbase.

The standard and special eight models introduced this year, have 100 horsepower motors, incorporating strikingly advanced engineering, with a unique fuel distribution system that includes an unusual design of manifold and heat control device.

Other distinctive features of the line are as follows: Distinctive front-end effect, with radiators, head lamps, fender lamps and bumpers forming a unified ensemble.

Original body frame construction assembled with bolts so located as to be easily accessible for maintenance or repairs.

Chassis frames heavily braced at mid-section with deep cross member surrounding the clutch housing, in the sixes and the new eights.

New type rubber suspension at forward end of front springs of the sixes, and at both ends of all four springs of the new eights.

A single adjustment automatic expansion type carburetor on the two sixes and new eights.

**Use Graham Name**  
All models, now bearing the name "Graham" alone, are just as completely Graham in engineering and manufacture, for all bodies, engines, and chassis are built in the plants of the Graham-Paige company.

This is the first year in which the passenger cars have borne the name Graham alone, the change of name marking the completion of a definite plan of the three Graham brothers to build automobiles of their own design and manufacture in both chassis and body.

Since acquiring the factories of the Paige-Detroit company, the Gabriels have more than doubled their manufacturing facilities. Two body plants—first one at Wayne, Michigan, and then a great new factory at Evansville, Indiana, were acquired and equipped with the most modern production machinery. Lumber mills were erected at Perry, Florida, to supply these plants with hardwoods for body construction. At the same time, the main plant was expanded and provided with new machinery and facilities for the efficient manufacture of frames, engines, and other major chassis units.

**RUBBER SHOES**  
LEEDS—UP—Rubber shoes for police horses are being tested here.

## Bish Returns From Meeting

Rev. and Mrs. C. Meryl Bish of the Stege Presbyterian church returned Friday evening from the minister's conference at Mt. Herman, sponsored by the Mt. Herman association.

About 75 ministers were present and speakers from all over the United States made the convocation supremely interesting and inspiring, Rev. Bish reports.

## Employment To Be Sermon Topic

"Jobless Men and Menless Jobs" will be the subject of Rev. Dallas A. Williams' sermon to be given this morning at the Community Methodist church. An eight minute sermon entitled "Wonderful Little Workers" will also be given by Rev. Williams at 10:45 o'clock.

In the evening, the sermon topic will be "Master Builders." Both services will be in keeping with Labor Day, and the community is invited to attend.

## No Services At Trinity Church

No Sunday school or morning church services will be held at Trinity church this morning, in order that the congregation may attend.

Rev. Terry, rector of Trinity church, and family moved yesterday from 612 Twenty-first street to 557 Tenth street.

## Premier's Daughter Plays Peace Queen

CRICCIETH, Wales.—The role of Peace Queen will be played by Miss Megan Lloyd George in a local pageant.

## Social League Plans Luncheon

# We Join the Ranks of GRAHAM dealers

QUALITY IS THE BEST POLICY

TODAY we become dealers for Graham cars and, because of our knowledge of the Graham brothers and their product, we are deeply gratified to make this announcement.

The Graham Eights and Sixes, led by the four-door Town Sedan at factory list price \$845 and the Universal Sedan at factory list price \$895, impressively climax the Graham's three-year program of quality and value building.

These cars, in and of themselves, dramatically and conclusively demonstrate the Graham ideal that quality is the best policy.

They demonstrate that by strict adherence to quality standards in massed production, motor cars can

rise above the common run in quality and still be held down in price.

The visual evidence of the Graham's achievement in this regard is present in car-features, in sound engineering and manufacturing, in the Graham-built chassis and the Graham-built bodies, in the complete protective equipment of shatter-proof safety plate glass, provided by Graham at the lowest cost ever placed upon such equipment, and in a gratifying combination of brilliant performance with extraordinary fuel economy.

We are ready now to have you call and inspect the latest Graham Sixes and Eights, and we shall be especially glad to welcome our friends and customers in our new capacity of Graham dealers.
